TALENT IN **TECHNICOLOUR**

## Gerardo Colegio

Cloud Engineer

### About Me

I'm a task-oriented and goal driven individual with professional experience working within customer service and the entertainment industry. I enjoy collaborating with others that are likeminded as me.

Working in the entertainment industry, I am comfortable with working in a fast-paced environment that has allowed me to improve my skillset.

My time with \_nology has helped sharpen my skills of collaboration, communication, and critical thinking.

### Key Course Skills

Git/Github, Web Fundamentals, JavaScript, ReactJS, Unit Testing, TDD, SQL/NoSQL Databases, GCP, AWS, Jenkins CI/CD, OOP, NodeJS, Python, Advanced Bash, Ansible, Terraform, Docker, Kubernetes and Networking.

### Education

**2018-2022**

**BA Communications**

Texas Christian University, Fort Worth, TX

**2016-2018**

**AA Business Administration**

South Texas College, McAllen, TX

### Hobbies

I regularly go to the gym, take pictures/videos with my camera, and play video games.

I also love to play sports such as Football and Soccer.

### Project Overview

#### Final Client Project Delivery

A real-life MVP for a development project, delivered as a Scrum team to a client who will use it for future development. It will include a React front-end and NodeJS server, deployed into a virtual environment in AWS/GCP. This will include a CI/CD pipeline using Jenkins, automated testing, deployment scripts using Ansible and Terraform, and orchestration/monitoring of a multi-available application in the cloud.

#### Deployment of the NodeJS API

Creation of a Jenkins pipeline, Ansible playbooks, a VPC with Two Tier architecture and connection with a live, secure database.

#### NodeJS ForEx API Project

A properly architected and documented Foreign Exchange API following all modern design patterns, testing and Agile delivery.

#### React API Project

A React application that pulls data from an external API and presents it in a dashboard or multipage layout.

#### JavaScript Game Project

A browser-based game using modern JavaScript programming techniques and DOM manipulation.

### Work Experience

August 2022

#### Production Assistant | Assembly Film Production, Los Angeles, California

- Created and maintained call times
- Refilled supplies as needed for production
- Oversaw and assisted set deconstruction
- Collected petty cash and receipts for office
